## 6. Shepherding

In this part of the exhibition  
you can see objects that tell us about shepherding.

Shepherding means taking care of some animals.

These animals can be:

- cows
- sheep
- pigs

Thanks to these animals we can:

- eat meat
- have milk
- get wool to make clothes

The person who takes care of these animals  
is called a shepherd.

In the past, the shepherd always had a dog  
and together they took the animals to the fields  
to eat grass.

The shepherd was also very good  
at working with wood  
to make objects.

Do you like milk?

With milk we can make many things,  
for example butter, cream or yoghurt.

In this part of the exhibition you can also see  
a bell that was tied around the animals' necks:  
**you can touch it and ring it!**
